GUIDE TO THE AM8 LAOTIANS FILE

/The Laotians file is a sub-file of the AM1 Indochina file. This means that the complete page-order text of most sources from which pages have been marked for the Laotians file will be found only in category 116 of the AM1 Indochina file, and the full bibliographic citations for these sources will be found only in category 111 of that file.

Because of this arrangement, a discussion of the AM8 Laotians file has been incorporated into an integrated orientation to the AM1 Indochina file and its three related sub-files, the other two being the AM4 Cambodians file and the AM11 Vietnamese file. For this integrated orientation, see the "Guide to the AM1 Indochina File" in category 10 of that file./
